

# BMT TITRON 雅橋德隆

## International Partnerships in Ship Design and Production

### BMT TITRON provides investors, owners, operators and constructors with complete specialist services in Naval Architecture and Marine Engineering Design

Based in Hong Kong with design centres in both China and the UK, BMT TITRON is best placed to serve the needs of its clients not only in these respective markets but also on a global scale.

The wealth of global expertise resulting from the integration of BMT and TITRON has created an impressive foundation upon which to serve the needs of investors, owners and builders.

With over 20 years experience to draw upon, BMT TITRON offers the complete design service for the Marine Industry. Focusing on innovative concept designs, new build designs, vessel conversions and upgrades, in-service support, project management, shipyard supervision along with historic renovations.

The BMT group consists of over 70 BMT offices worldwide, providing a comprehensive range of services covering all aspects of shipping life cycles. TITRON's success has been built on an in-depth knowledge of Asia combined with an understanding of international manufacturing performance, quality requirements and standards.

One of the key developments of BMT TITRON is that of **Nautilus Ships**. **Nautilus Ships** is a range of standard ship designs delivering high efficiency hull forms, cargo capacity and operating performance with low emissions. **Nautilus Ships** comply with all current international ship safety, environmental and structural requirements.

Further information about BMT TITRON and **Nautilus Ships** can be found on our website [www.bmt-titron.com](http://www.bmt-titron.com). For more information about **Nautilus Ships** see the **Nautilus Ships** datasheet or catalogue.
